Agri-food

In the heart of Vosges, TSA Inox designs, manufactures and innovates in the production of stainless steel wire items for the agri-food sector and industry.

With more than 35 years of experience, we are constantly evolving and rely on our industrial excellence to satisfy our customers.

Our development strategy is based on innovation and export.

TSA 
INDUSTRIES

RESEARCH OFFICE

INNOVATE, SUGGEST, ANTICIPATE

Our design department office lies at the heart of TSA's supply. Totally devoted to projects, it uses its experience and competences for their feasibility.

HAVE YOU GOT A PROJECT?

PRODUCTION

TSA Industries has more than 200 experienced employees.

We invest in the most efficient machines, usually made in France, Germany or Switzerland. We have a very large number of suitable machines at our disposal

for our various types of production:

- Small or large scale mass production
- Standard or custom-made products
- Special features (dimensional or shape tolerances,...)
- Electric, TIG or MIG, manual or robotic welding

We have several Electro-Polishing or Pickling-Passivation lines to ensure the performance of our stainless steel products.

INNOVATION IS A MAJOR FOCUS OF OUR DEVELOPMENT

We regularly file Patents.

Our Engineering Department is comprised of Technicians and Engineers specialists of your business..

In addition, we have partnerships with Research Centres, engineering schools and universities.

A few figures

more than
200 experienced
employees

3 sites
for production in Europe

400 tonnes
of stainless steel wires per month

1 research office & prototype service
entirely dedicated to projects,
we puts our skills and experience at your disposal for
your projects and their feasibility.

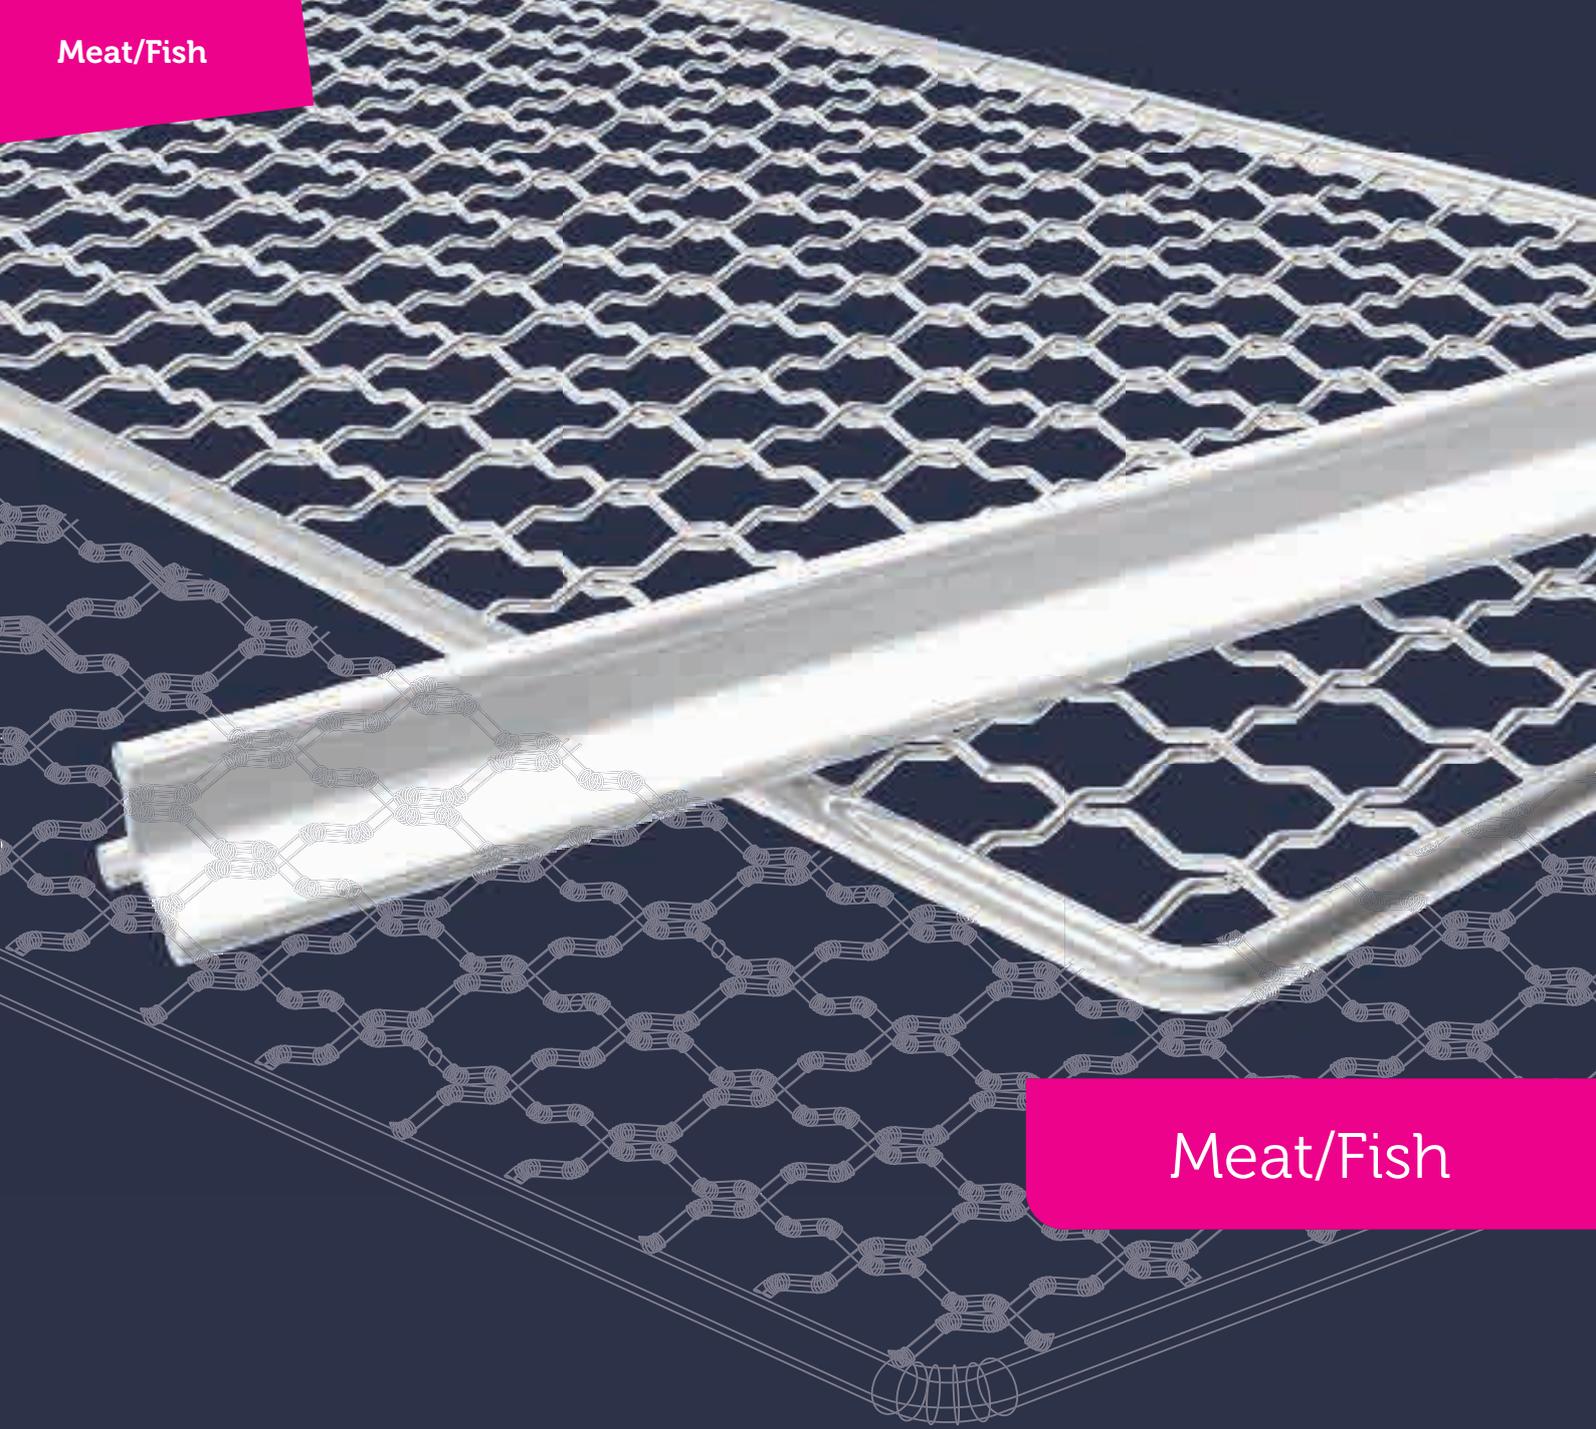

3,5 millions of filter trays
in use worldwide

300 000 grids
manufactured at TSA every year

Our solutions for meat and fish processing equipment

We offer products aimed at distributors and industrial companies specialising in the processing of meat and seafood products.

Our excellent knowledge of curing, smoking and drying means we can offer you innovative solutions perfectly adapted to your products in terms of:

- Performance (precision, stackable products, ergonomics, etc.)
- Hygiene (no bacteria nests)
- Integration into manual or **automated** or **automatic** production lines
- Robustness and reliability over time

All our equipment involved in meat and fish processing is made from 304 L or 316 L stainless steel with pickled or electro-polished finish

High-frequency electrically-welded wire TIG/MIG-welded sections

Our innovative design office develops and designs products most suited to your needs.

A European leader in food production support equipment

VERTICAL DRYING

Tall drying rack

Versatile frames for drying your products. High vertical storage height with the possibility of manufacturing stackable structures. These chassis are designed to facilitate automation.

TIG/MIG-welded structures. Number of sliding rails according to your needs.

CSVIA00024

FLAT DRYING

Swing tray for flat drying

Double baking frame with a wire filing surface and a tube frame. Designed to be transported with forklifts.

TIG/MIG-welded structures.

CSVIA00036

VERTICAL DRYING

Z-shaped frame

Ideal for drying. Z-shaped construction for easy empty storage (built-in frames). TIG/MIG-welded structures. Number of sliding rails according to your needs. CSVIA00057

FLAT DRYING

Defrosting frame

CSVIA00124

FLAT DRYING

Chassis 8 levels

Extremely sturdy 8-level chassis made of 304 Length stainless steel. Our design office adapts to your specifications. CSVIA00030

Defrosting trolleys

Trolleys with lift-up shelves designed for defrosting.

Wire design with a handle for handling. TSA designs and manufactures all kinds of defrosting trolleys according to your specifications.

CHVIA00182

Built-in standard smoking trolleys

Trolleys designed to facilitate the circulation of air and fumes. All our trolleys are adapted to the standards of the different smoking cells. Our sliding rails are versatile and can be used to arrange the grilles or the gratings in a variety of ways u bars.

CHVIA00017

Rolls with lift-up shelves for transportation

The trolleys can be equipped with lift-up, fixed or removable shelves. TSA designs and manufactures standard rolls but also special dimensions on request.

CHROZ10025

On roller with adjustable shelving

Flat-drying trolleys

30 level trolleys for flat smoking and drying. The number of levels and the the size of the trolley can be designed according to your specifications.

CHVIA00193

Smoking bars can be made in aluminium or stainless steel to the desired length.

Smoking stick

Aluminium sticks made of extruded profile. Measurements made to your specifications.

3-Wire Stick

Very resistant sticks made of stainless steel wire 304 length or 316 width. Measurements made to your specifications.

FIDIV12128

European tray supports

Stackable chassis allowing 2 or 3 European bins to be grouped together to save substantial space. PBVIA10018

European Bac

Sturdy 304 Length stainless steel construction. Lateral lifting handles suitable for all types of standard forklifts.

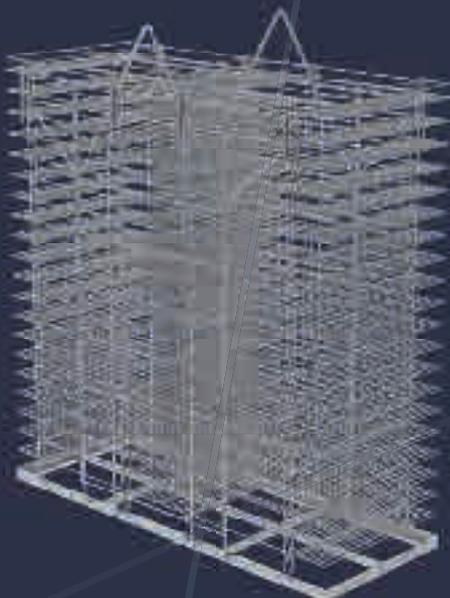

Capacity: 120, 200 and 300 litres. CHVIA00227

Drying assembly

Flat-drying set. This stack is built with a base frame, racks, trays, panels and a lifting bar.
